Professional profile

I'm Eric Alan González Fuentes, a Cloud and Solutions Architect with more than 20 years in information technology. My career began in software development and evolved into technical leadership and enterprise cloud architecture.

I bring applications, infrastructure, security, and business requirements into one conversation. My work spans Azure-first multicloud solutions, modernization, secure platform design, and hands-on engineering.

At Microsoft and through consulting engagements, I've helped teams move from architectural direction to delivery. More than 12 years collaborating with international teams have shaped how I communicate, mentor, and solve complex problems.

Technical & architecture expertise

Multicloud architecture

Enterprise landing zones, resilient cloud platforms, hybrid connectivity, and modernization across Azure, AWS, and Google Cloud.

Azure Landing Zones · AKS · EKS · GKE · App Service · Lambda · VNET / VPC · API Management

Security engineering

Secure-by-design systems with Zero Trust principles, identity controls, workload protection, and enterprise governance.

Entra ID · Defender for Cloud · Sentinel · Purview · AWS Security Hub · Cloud Armor

FinOps & governance

Cost-aware architecture, resource efficiency, right-sizing, and governance that connects technical choices with operational priorities.

Cost optimization · Resource efficiency · Cloud governance · Architecture reviews

AI solutions

Enterprise AI integration and data-connected solutions, supported by practical prompt engineering and AI-assisted delivery.

Azure OpenAI · AI Foundry · AI Search · Cognitive Services · GitHub Copilot

DevSecOps & platforms

Repeatable infrastructure, secure delivery pipelines, and standardized cloud-native platforms that teams can operate with confidence.

Terraform · Bicep · Pulumi · GitHub Actions · Azure DevOps · PowerShell

Backend & integration

API-first architectures, event-driven systems, microservices, and application modernization built on a strong software foundation.

C# · .NET · Python · Java · APIs · Distributed systems · Microservices

Data & analytics

Enterprise data flows, integration pipelines, analytics platforms, and data governance from ingestion to insight.

Data Factory · Synapse · Microsoft Fabric · Power BI · BigQuery · ETL / ELT

Professional experience

ONIKOM

Aug 2019 — Present

Cloud Architect / Solution Architect (Multicloud)

Azure-first multicloud architecture, migration strategies, DevOps automation, security and governance, backend integrations, FinOps, and application modernization. Client engagements span secure platforms, Kubernetes, Infrastructure as Code, data integrations, and AI services.

Microsoft

May 2015 — Jul 2019

Cloud Architect / Consultant

Led enterprise migrations from on-premises to Azure, designed secure enterprise architectures, delivered AI and chatbot solutions, and contributed to pre-sales, solution design, and execution.

Intellego

Dec 2014 — May 2015

Technical Leader (.NET)

Led web and desktop application development, defined architecture and migration strategies, and supported teams with design patterns and implementation.

Extend Solutions

Nov 2012 — Oct 2014

Cloud Consultant / .NET Specialist

Migrated enterprise digital solutions to Azure, developed MVC and Angular applications, and designed cloud-based architecture.

2H Software

Nov 2010 — Nov 2012

Technical Leader

Led on-premises to cloud migrations, designed infrastructure and application architecture, and developed service layers and mobile integrations.

Praxis

Jun 2011 — May 2012

Software Architect

Designed enterprise architectures and proofs of concept, defining technical standards and solution approaches.

Technical Leader

Led banking-sector development projects, designed CFD/CFDI solutions, and managed engineering teams and delivery.

Infilter

2007

Developer

Developed Java systems for staff evaluation and contributed to system analysis and implementation.

Professional credentials

- Microsoft Certified: Azure Solutions Architect Expert
- Microsoft Certified: Azure Security Engineer Associate
- Microsoft Certified: DevOps Engineer Expert
- Microsoft Certified: Azure Developer Associate
- Microsoft Certified: Azure AI Engineer Associate
- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Azure Data Fundamentals
- Microsoft Certified: Security, Compliance, and Identity Fundamentals
- Microsoft Certified: Azure AI Fundamentals
- Microsoft Certified: Azure Fundamentals
- Microsoft Specialist: Architecting Microsoft Azure Solutions
- Microsoft Certified Professional
- Microsoft Certified Trainer (MCT) — résumé documents 6+ years; current membership unconfirmed.

[Official Microsoft transcript](#) · Credential status checked October 8, 2026.

Languages & collaboration

Spanish: native. English: C1. More than 12 years working with international teams.

Public professional résumé, based on the supplied CV and official Microsoft transcript. Client identities and private personal contact details omitted.
